OBJECTIVE

Aspiring AI & Data Science engineer with a strong interest in software development, machine learning, and problem-solving. Skilled in learning and adapting to new technologies with a passion for building practical solutions. Seeking internship opportunities to apply technical skills, gain industry experience, and contribute effectively to innovative projects.

EDUCATION

B. Tech Artificial Intelligence & Data Science (CGPA: 9.15)	
V.S.B College of Engineering Technical Campus	2024-2028
HSC: Woodside School (Percentage: 80%)	2023-2024
SSLC: Nazareth Convent High School and Junior College (Percentage: 91.2%)	2021-2022

TECHNICAL SKILLS

Languages: Java, Python, SQL.

Databases & Caching: MySQL.

DevOps Tools: Git.

PROJECTS

Chat Application (Client Server Communication) Java, Apache NetBeans IDEs.

- Developed a real-time chat application using Java with socket programming in NetBeans IDE.
- Designed client-side GUI using Java Swing to provide a user-friendly interface for sending and receiving messages.
- Utilized TCP sockets to enable reliable communication between clients and servers.

Typing Speed Test | Java Swing, AWT

- Developed a typing speed test application with both terminal-based and GUI-based implementations using Java.
- Built a user-friendly graphical interface using Java Swing/AWT for real-time typing practice. Implemented features to calculate typing speed (WPM) and typing accuracy dynamically.
- Added sentence display, input validation, and performance tracking to improve user experience.

CERTIFICATIONS

- Infosys (Springboard): Data Structures using Python
- Uniathena: Basics of Python
- Great Learning: Introduction to Java Programming
